

## Australia

Australia is the world's smallest continent and the largest island. It is like nowhere else in the world. It has an area as big as mainland of the United States but has a population of only 20 million people. It's a friendly, young, adventurous and stylish nation that welcomes international students. The entire country has unique animals and a fabulous climate.

The population is comprised of over 130 nationalities which makes Australia one of the most multicultural countries in the world. This broad ethnic mix has created a rich cultural blend of languages, fashions, architecture and cuisines.

Moreover, the relaxed and safe lifestyle is another factor why students increasingly choose Australia for higher education. Comparatively, the cost of education and living is also lower for the standards of education that Australian universities are second to none.

## Entry Requirement

- Undergraduate

Undergraduate courses require an Australian Senior School Certificate of Education (Year 12 completion from Nepal) or the overseas equivalent of Australian high school matriculation, such as three passes at GCE A Levels in appropriate subjects. Some courses may also have certain pre-requisite subjects.

- Postgraduate

Entry to postgraduate courses requires satisfactory completion of a first degree at undergraduate level (Bachelors). Demonstrated research ability or relevant work experience may also be taken into consideration. Evidence of English language proficiency is required when applying for a student visa. Depending on your proposed study sector you will need to have a minimum score of 6.0 in the IELTS English test.
