

GRE INTRODUCTION

The Graduate Record Examination is a test taken to estimate verbal, mathematical, and analytical skills in students. The Graduated Record Examination is simply known as GRE. This test helps universities or colleges to measure the ability of applicants for advanced education. The students who intend to study business don't require attending GRE exam. More than two thousand universities in the USA require GRE score from each applicant before permitting them to admit in their university.

The GRE examines the skills on reasoning and comprehension. There is no any minimum qualification indicated for taking GRE. However, the candidate must be a graduated student or about to complete graduation within six coming months.

Generally, the students who want to study Post Graduate level or PhD program in American universities requires to pass the GRE Test. Princeton in New Jersey conducts this exam which is a provide Educational Testing Services.
